Re: Hallie Heights Subdivision (Amended)

MDP # 756-A TIF

Mr. Diab:

The City Staff Development Review Committee has reviewed the Huebner Square Townhomes Development Plan, **M.D.P. # 756-A**. Enclosed, please find a signed copy for your files. Your plan was accepted however please note the following:

- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- Any access and R.O.W. issues along state facilities will need to be resolved with the **Texas Department of Transportation (TXDOT)**. For information about these requirements you can contact TXDOT at 615-5814.

The DSD – Traffic Impact Analysis & Streets Division has reviewed a plan time stamped 1-12-06 and recommends support with the following conditions:

1. The pavement designs shown shall not be utilized for plat review. Plat review requires standard geotechnical report.
2. Clear vision easements shall be provided in accordance with UDC 35-506(d)(5).
3. 15-foot property line returns shall be provided at all street intersections with Ray Ellison and Loop 410.
4. At the Loop 410 frontage road intersection, a right turn lane shall be provided for the new platted subdivision.

Mr. Diab
May 30, 2006
Page 2

It should be understood that this is a general review of a conceptual plan not an in-depth review of internal and external traffic flow, nor streets and drainage plans. The internal street network shall be planned in order to provide safe and efficient movement of traffic to and from, within and past, the proposed development, while minimizing the impact to non-site trips. All technical requirements of the Unified Development Code will be complied with at the time of platting.

- This development will need to comply with **Tree Preservation** ordinance #85262. For information about these requirements you can contact Building Inspections at 207-7102.
- It will be expected that you will plat all of the property depicted in your Master Development Plan (M.D.P.) to include floodplains, drainage areas and open space.
- I would encourage you to work closely with the school district, so that they can plan accordingly.

Parks and Recreation: Hallie Heights is a proposed subdivision of 203 residential lots. Per UDC section 35-503, table 503-1, the required Parks or Open Space requirement is 1 acre per 70 dwelling units. Phases 1 and 2 are vested. But Phase 3, consisting of 46 lots, is not and will have a requirement of .7 acres. A 0.2 acre parcel has been provided along with amenities.

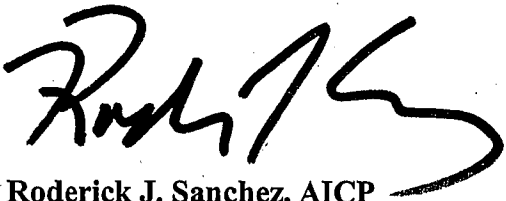

- The 0.2 acre parcel being dedicated has 3 picnic units; a picnic unit is defined as a concrete or metal picnic table, and two benches permanently anchored to a concrete slab.
- A covered school bus stop is provided for use by the appropriate school district; a covered bus stop is defined as a concrete or metal bench, covered by a metal shelter permanently anchored to a concrete slab.
- Lighting for the parcel shall be provided.

Mr. Diab
May 30, 2006
Page 3

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. If the proposed development is not platted in phases this Master Development Plan (M.D.P.) will be invalid.

**All Platting will have to comply with the Unified Development Code,
Master Plan, and Major Thoroughfare Plan for the City of San Antonio.**

Sincerely,

A handwritten signature in black ink, appearing to read 'Roderick J. Sanchez', with a stylized flourish at the end.
